# OneResponder

OneResponder is the personnel qualifications management tool that is part of the National Resource Hub. It supports the implementation of the National Incident Management System's (NIMS) resource management objective to qualify, certify, and credential incident personnel and aids in implementing the National Qualifications System (NQS).

Use OneResponder To:

- Implement the NQS across your organization.
- Issue, track, and approve Position Task Books.

- Configure resources to local requirements.
- Manage qualifications and training.
- Share personnel qualifications information across organizations.

Qualifications	Certification	Credentialing

Prerequisites Completed		Qualification Review and Certification/ Recertification		Credentials Issued or Reissued
Position Task Book Completed				

OneResponder is available at no-cost to all state, local, territorial, and Tribal agencies, non-governmental organizations, and other mission partners

National Incident Management System Guideline for the National Qualification System
